Report on review of condensed consolidated interim financial information

To the shareholders of Tanmiah Food Company
(A Saudi Joint Stock Company)

Introduction

We have reviewed the accompanying condensed consolidated interim statement of financial position of Tanmiah Food Company (the "Company") and its subsidiaries (together the "Group") as at 30 September 2026 and the related condensed consolidated interim statement of profit or loss and other comprehensive income for the three-month and nine-month periods then ended and the condensed consolidated interim statements of changes in equity and cash flows for the nine-month period then ended and explanatory notes. Management is responsible for the preparation and presentation of this condensed consolidated interim financial information in accordance with International Accounting Standard 34 – 'Interim Financial Reporting' ("IAS 34"), as endorsed in the Kingdom of Saudi Arabia. Our responsibility is to express a conclusion on this condensed consolidated interim financial information based on our review.

Scope of review

We conducted our review in accordance with International Standard on Review Engagements 2410, "Review of interim financial information performed by the independent auditor of the entity", as endorsed in the Kingdom of Saudi Arabia. A review of interim financial information consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with International Standards on Auditing, as endorsed in the Kingdom of Saudi Arabia, and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

Conclusion

Based on our review, nothing has come to our attention that causes us to believe that the accompanying condensed consolidated interim financial information is not prepared, in all material respects, in accordance with IAS 34, as endorsed in the Kingdom of Saudi Arabia.

Gross profitability for the nine-month period ended 30 September 2026 improved, primarily driven by higher sales volumes and increased average selling prices across the Group's poultry, food and agriculture business. Furthermore, prepayments and other receivables increased mainly due to advances paid to suppliers for purchase of inventories and to maintain buffer stock amidst ongoing regional situation.

The Group continues to closely monitor ongoing geopolitical developments in the Middle East and their potential impact on the Kingdom of Saudi Arabia and the wider GCC region, where a significant portion of its operations is based. In response, the Group has implemented mitigation measures, including diversification of supplier sources, increased inventory coverage, and adoption of alternative logistics routes, to strengthen operational resilience and supply continuity. Given the evolving nature of the situation, the Group will continue to monitor developments and assess any potential effects on its operations, supply chain, and costs.

2. Basis of preparation

2.1 Statement of compliance

This condensed consolidated interim financial information of the Group has been prepared in accordance with International Accounting Standard 34 - "Interim Financial Reporting" ("IAS 34"), as endorsed in the Kingdom of Saudi Arabia, and other standards and pronouncements issued by the Saudi Organization for Chartered and Professional Accountants ("SOCPA").

This condensed consolidated interim financial information does not include all the information and disclosures required in the annual consolidated financial statements and should be read in conjunction with the annual consolidated financial statements for the year ended 31 December 2025. IAS 34 states that the condensed consolidated interim financial information is intended to provide an update on the latest complete set of annual financial statements. Hence, IAS 34 requires less disclosure in interim financial information than International Financial Reporting Standards, that are endorsed in the Kingdom of Saudi Arabia, and other standards and pronouncements issued by SOCPA, require in annual financial statements. An interim period is considered as an integral part of the whole fiscal year, however, the results of operations for the interim periods may not be a fair indication of the results of the full year's operations.

The Group has elected to present a single condensed consolidated interim statement of profit or loss and other comprehensive income and presents its expenses by function. The Group reports cash flows from operating activities using the indirect method.

The condensed consolidated interim financial information is prepared on a going concern basis.

2.2 Basis of measurement

This condensed consolidated interim financial information has been prepared under the historical cost basis, except as explained in the relevant accounting policies in the annual consolidated financial statements for the year ended 31 December 2025.

This condensed consolidated interim financial information is presented in Saudi Riyals (SR), which is the functional currency of all the Group entities, except for SFB, GBRMC, Nola and ATAR. The functional currency of SFB and Nola is Bahraini Dinar, GBRMC is Kuwaiti Dinar and ATAR is Qatari Riyal. The presentation currency of the Group is SR. This condensed consolidated interim financial information has been rounded-off to nearest SR, unless otherwise stated.

The activities of the Group are evenly spread throughout the year, therefore there are no seasonal or cyclical changes that affect the Group's operations.

2.3 New standards and amendments

a) New and amended standards adopted by the Group

The accounting policies adopted in the preparation of the condensed consolidated interim financial information are consistent with those followed in the preparation of the Group's annual consolidated financial statements for the year ended 31 December 2025, except for the adoption of certain amendments to existing standard became applicable for the current reporting period. The Group has adopted the following relevant amendments to International Financial Reporting Standards ("IFRS") which are effective for period beginning on and after 1 January 2026, and have no material impact on the Group:

Title	Effective date
Amendment to IFRS 9 and IFRS 7 - Classification and Measurement of Financial Instruments	1 January 2026
Annual improvements to IFRS - Volume 11	1 January 2026
Amendment to IFRS 9 and IFRS 7 - Contracts Referencing Nature-dependent Electricity	1 January 2026

There has been no material impact on the condensed consolidated interim financial information of the Group upon adoption of the above amended standards. There are no other amendments or interpretations which are effective from 1 January 2026 that have a material effect on the Group's condensed consolidated interim financial information.

b) Standards and interpretations issued but not yet effective

Certain new accounting standards and interpretations have been published that are not mandatory for 30 September 2026, reporting period and have not been early adopted by the Group. The standards, interpretations and amendments issued that are relevant to the Group but are not yet effective are disclosed below.

Title	Effective date
Amendments to IAS 21 - Translation to a Hyperinflationary Presentation Currency	1 January 2027
IFRS 18 -Presentation and Disclosure in Financial Statements	1 January 2027
IFRS 19 -Subsidiaries without Public Accountability	1 January 2027

Management is in the process of assessing the impact, if any, which amendments to IAS 21 and introduction of IFRS 19 may have in future reporting periods.

IFRS 18 - Presentation and Disclosure in Financial Statements

In April 2024, the International Accounting Standards Board issued IFRS 18 "Presentation and Disclosure in Financial Statements" ("IFRS 18"). IFRS 18 will replace IAS 1 "Presentation of Financial Statements" and introduces new requirements for the presentation and disclosure of information in the financial statements, particularly in relation to the structure of the statement of profit or loss and other comprehensive income, consequential amendments to IAS 7 'Statement of Cash Flows' impacting statement of cash flows, principles for aggregation and disaggregation, and disclosures relating to management-defined performance measures.

IFRS 18 is effective for annual reporting periods beginning on or after 1 January 2027, and is to be applied retrospectively. The Group has not early adopted the new accounting standard in preparing this condensed consolidated interim financial information.

Based on the preliminary assessment, the expected impact of IFRS 18 is described below:

(i) Structure of the statement of profit or loss and other comprehensive income

IFRS 18 requires entities to classify all income and expenses in the statement of profit or loss and other comprehensive income to be categorised into one of the five categories i.e., operating, investing, financing, zakat income tax and discontinued operations. Classification of income and expenses depends on the main business activities of an entity. The Group has determined that it does not have a specified main business activity of investing in assets and/or providing financing to customers. IFRS 18 introduces the requirement to present two new defined sub-totals i.e., 'operating profit' and 'profit or loss before financing and income taxes'. The Group currently presents an 'operating profit' subtotal. The adoption of IFRS 18 will not result in any adjustment to the Group's profit for the year/period or retained earnings.

The Group expects changes to the current structure of the consolidated statement of profit or loss and other comprehensive income to result from the following:

- A new subtotal, 'Profit before financing and zakat and income tax' will be presented to show the income from operating category and investing category separately;
- Foreign exchange gains or losses arising from transactions not related to raising finances or changes in interest rates will be reclassified and presented under the operating category;
- Bank charges not related to raising finance or changes in interest rates will be re-classified and presented under operating category;
- 'Finance income' and 'Share in net results of an associate' will be re-classified and presented under investing category.
- 'Finance costs' will be presented under financing category.
- Finance cost on employee benefit obligations, which is currently presented within employee costs, will be classified and presented within finance costs; and

(ii) Management-Defined Performance Measures (MPMs)

MPMs are defined as a subtotal of income and expenses used in public communications outside the financial statements. MPMs are presumed to communicate to users of the consolidated financial statements, management's view of an aspect of the financial performance of the entity as a whole. The new change will require to disclose specific information about MPMs in the notes to the consolidated financial statements together with explanation and reconciliation.

The Group is in process to determine which public communications should be considered when identifying MPMs. MPMs relate to the same reporting period as the consolidated financial statements. Therefore, MPMs disclosed by the Group following adoption of IFRS 18 will be determined based on public communications issued by the Group relating to the 2027 reporting period. As per the initial assessment, the Group has not identified any MPMs for the current reporting period.

(iii) Principles of aggregation and disaggregation

IFRS 18 provides enhanced guidance on the principles of aggregation and disaggregation which focus on grouping items based on their shared characteristics, including specific presentation or disclosure matters identified through management's implementation assessment. These principles are applied across the financial statements, and they are used in defining which line items are presented in the primary financial statements and what information is disclosed in the notes.

The Group is assessing the grouping of items on the basis of similar and dissimilar characteristics. Based on this assessment, it will present line items in the primary financial statements that provide useful structured summaries and disclose additional material information in the notes.

(iv) Consequential amendments

IFRS 18 introduces consequential amendments to IAS 7, which require entities to use the newly defined operating profit subtotal as the starting point for the consolidated statement of cash flows when presenting operating cash flows under the indirect method. The Group currently uses profit before zakat and income tax for the year/period as the starting point of the reconciliation to cash flows from operating activities. Certain adjusting items included in the reconciliation will change as a result of the new starting point.

The consequential amendments also provide specific guidance on the classification of finance cost, finance income and dividend cash flows. Cash flows from 'finance income received' will continue to be classified as investing activities and cash flows of 'dividends paid' and 'finance costs paid' as financing activities.

3. Critical accounting estimates and judgments

Preparation of the Group's condensed consolidated interim financial information requires management to make judgments, estimates and assumptions that affect the reported amounts of revenues, expenses, assets, liabilities and accompanying disclosures. Uncertainty about these assumptions and estimates could result in outcomes that require a material adjustment to the carrying amount of the asset or liability affected in future periods.

These estimates and assumptions are based upon experience and various other factors that are believed to be reasonable under the circumstances and are used to judge the carrying values of assets and liabilities that are not readily apparent from other sources. The estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimates are revised or in the revision period and future periods if the changed estimates affect both current and future periods.

Management has concluded that the Group's critical accounting judgements, estimates and assumptions remain appropriate under the current circumstances for the purpose of preparation of the condensed consolidated interim financial information. Management believes all sources of estimation uncertainty remain similar to those disclosed in the annual consolidated financial statements for the year ended 31 December ~~31,~~ 2025, except as discussed below:

Useful lives of property, plant and equipment

Management determines the estimated useful lives and residual values of property, plant and equipment for calculating depreciation. This estimate is determined after considering the expected usage of the assets and physical wear and tear.

Management reviews the useful lives, residual values and method of depreciation annually for any significant changes from previous estimates, and any resultant changes in depreciation charges are adjusted in current and future periods.

During the nine-month period ended 30 September 2026, the Group reviewed and revised the useful lives of certain machinery and equipment within the restaurant business. The revision was based on the actual extent of usage and the wear and tear of the assets as at the re-assessment date. As a result, effective from 1 April 2026, the Group revised the estimated useful lives of these machinery and equipment from an average of 5.5 years to an average of 8 years, to better reflect the estimated periods during which these assets will remain in service. Had there been no revision to the useful lives, the depreciation charge for the three-month and nine-month periods ended 30 September 2026 would have been higher by Saudi Riyals 0.9 million and Saudi Riyals 1.8 million, respectively.

4. Property, plant and equipment

	30 September 2026 (Unaudited)	**31 December 2025 (Audited)**
Net book value at the beginning of the period / year	**1,128,613,557**	777,219,725
Additions	**91,529,660**	418,300,338

Carrying value at the end of the period/ year	**1,157,386,300**	1,128,613,557

The additions during the nine-month period ended 30 September 2026 mainly represent additions to capital work-in-progress for construction of feed mill, expansion of the current capacity of the processing plant and hatchery expansion.

Furthermore, during the three-month period ended 30 September 2026, a certain feed mill project was transferred from capital work-in-progress to the relevant category upon completion of the construction, amounting to SR 101 million.

5. Leases

The Group leases various accommodations, warehouses, buildings, poultry processing plants, farms, vehicles and offices. Rental contracts are typically made for fixed periods of 2 to 18 years. Lease terms are negotiated on an individual basis and contain a wide range of different terms and conditions.

8. Biological assets

	30 September 2026 (Unaudited)	31 December 2025 (Audited)
Breeder birds – rearing & production	**165,154,897**	176,325,186
Broiler birds	**51,104,567**	43,605,235
Hatchery eggs	**28,512,039**	21,340,973
	244,771,503	241,271,394

As at 30 September 2026, the Group had 16.1 million broiler birds (31 December 2025: 15.5 million broiler birds). Further, 139.7 million broiler birds were slaughtered during the nine-month period ended 30 September 2026 (nine-month period ended 30 September 2025: 132.2 million broiler birds were slaughtered).

As at 30 September 2026, the Group had 2.6 million breeder birds and 20.6 million hatchery eggs (31 December 2025: 2.7 million breeder birds and 18.8 million hatchery eggs).

The fair value measurements for the broiler birds and hatchery eggs have been categorised as Level 3 in the fair value hierarchy based on the inputs to the valuation techniques used. Valuation techniques and significant unobservable inputs used for valuation of biological assets are as below:

Biological assets	Valuation technique	Significant unobservable inputs	Inter-relationship between key unobservable inputs and fair value measurement
Live broiler birds	The valuation model considers the average weight of bird, mortality and the estimated selling price less cost to sell including the additional cost required to bring the birds as ready to sell (i.e. feed cost, medicines and overheads).	- Mortality of birds - Average weight of birds. - Processing loss. - Sales price of fully-grown bird less cost to sell.	The estimated fair value would increase/ (decrease) if: -Mortality was lower/ (higher). -Average weight of birds higher/ (lower). -Processing loss was lower/ (higher). -Selling price of fully-grown bird less cost to sell was higher/ (lower).
Hatchery eggs	The valuation model considers the hatchability and actual selling price less cost to sell including the additional cost required to bring the eggs as ready to sell (i.e. overhead and vaccine cost).	- Hatchability of the eggs.	The estimated fair value would increase/ (decrease) if the hatchability was higher/ (lower).

The Group's finance department includes a team that performs valuations of the Group's biological assets for financial reporting purposes, including level 3 fair values. This team reports directly to the Group Chief Financial Officer (CFO). Discussions of valuation processes and results are held between the CFO and the valuation team at least once every three months.

The main level 3 inputs used by the Group are derived and evaluated as follows:

- Mortality rate and processing loss of the broiler birds have been determined based on the historicalrate and environmental factors.
- The broilers birds grow at different rates and there can be a considerable spread in the quality and weight of broilers that affects the price achieved. An average weight is assumed for the slaughter of broiler bird that are not yet at marketable weight.
- Hatchability rate of the eggs have been determined based on the historical rate and environmental factors.
- Hatchery eggs before incubation can be sold at a uniform price that does not fluctuate materially since the quality and weight of the eggs is not relevant at the stage of hatchery.

The average interest rates during the three-month period ended 30 September 2026 on these facilities varied between 2.5% to 6.5% per annum (31 December 2025: 3.9% to 8 % per annum). The Group's long-term facilities have maturities ranging from 7 to 10 years, including applicable grace periods.

10. Zakat and income tax

The Company file zakat and income tax declaration on standalone basis. The significant components of the zakat base of each company under the zakat and income tax regulations are principally comprised of shareholder's equity, provisions and other adjustments, less deductions for the net book value of the deductible assets. The movement in the Group's zakat provision is as follows:

	30 September 2026 (Unaudited)	31 December 2025 (Audited)
Opening balance	**9,723,553**	17,857,296

Closing balance	**4,524,267**	1,694,938
Zakat and income tax payable	**12,829,372**	11,418,491

Status of final assessments

The zakat assessments for the Group and its subsidiaries for all years prior to 2020 are time-barred.

For the year ended 31 December 2023, ZATCA raised an additional zakat liability of SR 0.1 million for TFC on stand-alone basis, which has been settled by the Company. During the period, ZATCA finalised TFC's zakat assessment for the year ended 31 December 2024 with no additional liability payable.

For the Group's subsidiaries, Zakat assessments for the years 2022 through 2025 remain open and are currently under review by ZATCA.

Income tax is applicable on ADC, MDP and NOLA. There are no open assessments as at the 30 September 2026.

11. Related party transactions and balances

The Company is a member of an affiliated Group of companies, which are directly or indirectly controlled by Al-Dabbagh Holding Company (ADGHC) (the "parent company").

14. Segment information

An operating segment is a part of the Group that carries out business activities from which it may generate revenues and incur expenses, including revenues and expenses arising from transactions with other components of the Group. The operating results of all segments are reviewed regularly by the Chief Executive Officer, who is regarded as the Chief Operating Decision Maker ("CODM"), in order to make decisions on resource allocation and assess performance. Discrete financial information is available for each operating segment.

The Group operates in two business segments namely 'Poultry, Food and Agriculture', which includes manufacturing and distribution of fresh and processed poultry and poultry related products and 'Restaurants outlets', with related services. This is in line with the operating segment that is regularly reported to the CODM. This is also the measure reported to the Group's Board of Directors for the purpose of resource allocation and assessment of segment performance.

15. Subsequent events

There were no events subsequent to 30 September 2026 and occurring before the date of the approval of the condensed consolidated interim financial information that are expected to have a significant impact on this condensed consolidated interim financial information.

16. Comparative figures

During 2026, the Group's management reassessed the presentation of finance costs paid in the condensed consolidated interim statement of cash flows. For the nine-month period ended 30 September 2025, the Group presented the principal lease payments amounting to SR 93.8 million and its associated finance cost payments amounting to SR 31.8 million within a single line item under financing activities, whereas the finance cost paid on borrowings and other finance charges amounting to SR 34 million was presented within operating activities. In accordance with the requirements of IAS 7'Statement of Cash Flows' as endorsed in the Kingdom of Saudi Arabia, finance costs paid should be presented as a separate financial statement line item in the condensed interim statement of cash flows either under operating or financing activities. Further, the principal elements of lease payments should be presented as a separate financial statement line item in the condensed interim statement of cash flows. Accordingly, management has restated the comparative information in accordance with IAS 8 "Accounting policies, changes in accounting estimates and errors" as endorsed in the Kingdom of Saudi Arabia to present all finance costs paid and principal lease payments as separate line items, within financing activities, in the condensed consolidated interim statement of cash flows.

The restatement had no impact on the condensed consolidated interim statement of financial position, the condensed consolidated interim statement of profit or loss and other comprehensive income and condensed consolidated interim statement of changes in equity.
